

Higher National Certificate in Electrical and Electronic Engineering

Subject Area	Engineering
Course Type	Higher Education
Study Level	No formal qualification
Delivery Mode	Part-time
Location	Trinity Green
Duration	2 Academic Year
Start Date	September 2024
Course Code	PPHN008

Course Summary

The Pearson BTEC Level 4 Higher National Certificate in Engineering (Electrical and Electronic Engineering) is designed to provide you with wider knowledge of Engineering principles and methodology, supported by the development of analytical and research skills to prepare you for employment opportunities in the Electrical and Electronic Engineering field or study at HND/degree level. Emphasis will be placed upon reflection, analysis, environmental impact, critical thinking and personal development.

What You Will Learn

Units are sequenced to provide you with a coherent learning experience. The structure will also ensure a practicable, even spread of assessments throughout the academic year.

The Higher National Certificate programme has a total value of 120 credits and is equivalent to approximately 1200 hours total learning time.

Teaching and learning methods:

- Lectures and Seminars
- Workshops and Labs
- Tutorials
- Virtual Learning Environments (VLEs) Moodle
- Work Based Learning
- Guest Speakers
- Field Trips

Modules

Year 1:

- Engineering Design
- Engineering Maths
- Managing a Professional Engineering Project
- Production Engineering for Manufacture
- Automation, Robotics and Programmable Logic Controllers (PLCs)

Year 2:

- Quality and Process Improvement
- Electrical and Electronic Principles
- Electrical Machines

Entry Requirements

A BTEC Level 3 qualification in Engineering and a minimum of 80 UCAS points. GCSE Mathematics and English at Grade 4 minimum or equivalent.

Or

A minimum of 80 UCAS points including at least one Level 3 qualification in Maths, Physics or Computer Science. GCSE Mathematics and English at Grade 4 minimum or equivalent.

Or

An Access to Higher Education Certificate in an Engineering discipline awarded by an approved Further Education institution.

Work Experience

Although this course does not directly offer work experience, there are opportunities for you to undertake a work placement or work experience during your time studying on this course.

Progression

Successful completion of the programme can lead to an HND top-up in Electrical and Electronic Engineering. The programme is designed to support career progression for anyone working in Engineering or for those who would like to develop their knowledge and skills and pursue a career in this field.
