### Course Summary

---

Are you interested in becoming a nurse, midwife, or paramedic? This T Level course provides a pathway into these rewarding careers, complete with hands-on learning in our state-of-the-art facilities.

Focusing broadly on adult nursing, healthcare best practices, and an understanding of the NHS, this course is valuable for anyone looking for a rewarding career in the healthcare sector. The course will provide you with the knowledge and skills needed for a range of health occupations, enabling you to progress into skilled employment or higher-level technical training. Topics range from across both health and science. A major placement at a local NHS Foundation Trust will help you gain valuable work experience with patients and health professionals to help you fast-track your career. This course also prepares you for university studies in nursing or healthcare.

### What You Will Learn

---

- How to assist with someone's overall care and needs for their comfort and wellbeing
- How to support registered healthcare professionals with clinical tasks and

interventions

- How to carry out a range of physiological measurements ie observations for blood sugars, pulse rates, breathing
- How to assist an adult nursing team with daily tasks
- How to meet the daily living needs of individuals
- Assist with skin integrity assessments and the treatment of skin conditions

## Modules

---

- Understanding the healthcare sector
- Supporting health and wellbeing
- Understanding health, safety and environmental regulations
- Managing information and data
- Understanding the principles of good scientific and clinical practice

## Entry Requirements

---

Entry to this course requires 5 GCSEs at Grade 4 or above, must include English and Maths and Science (or Level 2 applied science).

## Work Experience

---

You will have the opportunity to complete 350 hours of relevant and enriching work experience related to the area that you want to work in. This can give you a careers edge and fast track you into the Healthcare sector.

## Progression

---

Successful completion of this course can lead to progression into higher level study or employment in the Health sector. Careers include Adult Nursing, Midwifery and Physiotherapy.
