Course Summary

This programme is a short course, delivered as part of a longer programme of a longer HNC or can be completed as a standalone module. It is delivered through blended learning which means a combination of face to face and online delivery sessions.

Data analytics is the science of analyzing raw data to draw conclusions and make informed decisions. It helps businesses optimize performance, increase efficiency, maximize profits, and identify trends and patterns.

What You Will Learn

- Data analysis techniques and tools
- Statistical analysis and interpretation
- Data visualization methods

Progression

Each module is worth 15 credits. If you successfully complete one, two or three modules, you will receive a Certificate of Unit Credit (CoUC) upon completion of the individual units. If you finish 8 units, you will awarded a HNC. **You can progress onto other units, and then onto a HNC or HND.**
