

Bricklayer

LEVEL 2

Bricklaying involves building and repairing walls, foundations, and other structures using bricks and blocks. It's a fundamental skill in the construction industry, which is a major part of the UK economy. Construction is crucial for creating the homes, schools, hospitals, and transport systems that our communities rely on every day.

As a bricklayer, you'll play a vital role in this important work, especially in the house-building sector. The government has set ambitious targets to build many more homes in the coming years, which means there's a growing demand for skilled bricklayers. This apprenticeship offers you the chance to be part of this exciting industry, where your skills will help shape the future of our towns and cities.

PROGRAMME START

September.

COURSE DURATION

24 months + EPA (End Point Assessment).

ENTRY REQUIREMENTS

You can join with a minimum of GCSE grade 3 in Maths and English (or equivalent). If you are over 19 when starting the apprenticeship and do not have GCSEs in Maths and English, you are not required to complete Functional Skills unless the company you work for requests it. However, you still have the option to complete them if desired.

COURSE DELIVERY METHOD

This apprenticeship combines practical work placements with classroom-based learning. Apprentices will gain hands-on experience in the workplace, supported by regular assessments, and spend one day a month at the College for theoretical and classroom-based learning.

FUTURE OPPORTUNITIES

Once you complete the apprenticeship, you'll be eligible to get a Construction Skills Certification Scheme (CSCS) card at the right level. You'll also be fully qualified to City & Guilds standards, opening up more job opportunities in the construction industry.

COURSE CONTENT

The following skills, knowledge, and behaviours will be gained from this apprenticeship:

- » **Skills:**
 - Preparation of materials
 - Masonry structures
 - Radial and battered brickwork
 - Feature and reinforced brickwork
 - Building technology
- » **Knowledge:**
 - Brick and alternative construction techniques
 - Buildings and materials
